

# St Bede's Retrieval and Revision menu

## Read Cover Write Check

Look at the information you want to remember.  
Read through a few times. Cover it.  
Write it out. Check that what you wrote is correct.

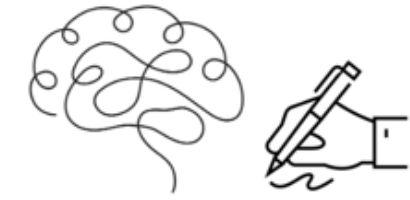

## Flashcards

Create a set of flashcards. Questions on the front and answers on the back.

Repeatedly quiz yourself on the content.  
Repeatedly redo any cards that you get wrong.

## Brain Dump

Write down everything you can remember about a topic. You could use a list or mind map.

Compare this to class notes, a revision guide or your previous work on the topic.

## Quizzing

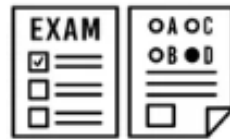

Create your own quiz to complete or take some of the online quizzes (SPARX, SENECA, BBC bitesize).

Make a note of the errors you have made and revisit them (this could be on flashcard).

Repeat these quizzes.

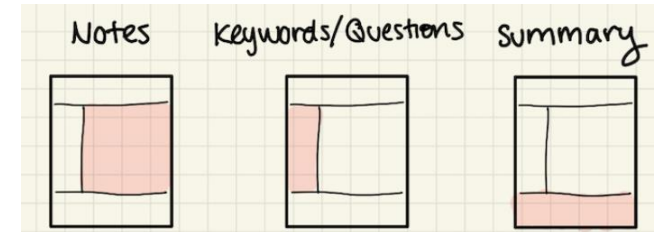

## Exam Questions

Answer a past paper exam question or set of questions.

Use the mark scheme to self-assess your answers.  
Take this further by doing it in timed conditions.

## Cornell Notes

Read (or watch) the information you want to remember:

- 1) Make revision notes.
- 2) Summarise the key points from your notes.
- 3) Record key vocabulary.
- 4) Create quiz questions for your later use.
